**Serie di mattoncini tinteggiati in sei
nuance di colori, tre caldi e tre freddi,
combinabili tra loro e adatti sia come
rivestimento che posati a pavimento.**

La struttura materica e le imperfezioni della forgiatura del manufatto che traspaiono dai colori opachi, corposi ed intensi generano effetti di chiaroscuri e giochi di ombre che conferiscono uno straordinario movimento alla superficie su cui sono impiegati i mattoncini.

Brick Design è una serie versatile ideale per ogni stile abitativo, dai loft metropolitani di design agli interni di gusto più tradizionale. Ispirata dai *mood board* per progettare interni dal design contemporaneo, in linea con le tendenze architettoniche più attuali.

A series of bricks in six colour shades, three warm and three cold, which can be mixed and matched; suitable as both wall covering and flooring.

The tactile structure and the flaws left by the forging of the piece, still visible through the full, strong, matt colours, generate light and shade effects which give finished surfaces an extraordinary movement and variety.

Brick Design is a versatile series, ideal for every lifestyle, from the metropolitan designer loft to interiors in more traditional taste. Inspired by the mood boards created for the design of interiors in contemporary style, in line with the very latest architectural trends.

The Book of Amos

...and forbad evil but committed it." And "When I was made a pauper by night I passed by them whose lips were being drenched with sinners of fear. I asked, "Why are you so?" and they said, "We rejoiced good and did not do it, and forbade evil and committed it."

These things come true for those who condemn in God when their real intention is to acquire the things of this world, and who refuse to good but persistently condemn it, who were against evil but persistently condemn it, who fall into temptation and wish to make a reputation for themselves. As for those who condemn others for God's sake while upholding their own selves, forbidding them to be neighborly, and exhorting them to show zeal, it is to be hoped that they will be saved. Anyway, the one who knows and teaches (what he teaches) but does not practice it in a better way, a wiser way, and in a safer manner than the one who knows, but neither practices nor teaches.

A man of little understanding may perhaps say: "There is surely a reflection of darkness in books, there is no benefit in compiling new ones in this age." Such a man would be correct insofar as books are indeed shadows and should be sufficient, but not in saying that no benefit is to be gained from compiling better books now. People's hearts are naturally attracted to anything new, and God gives them, in such times, knowledge which in the future has been sealed in the sea. He will then plan and execute the school of spreading knowledge in numbers and numbers men to save. As the Messenger of our Lord, has said: "The vision that came to me concerning the renewal until the I have called the treatise 'I am prepared for all' before that."

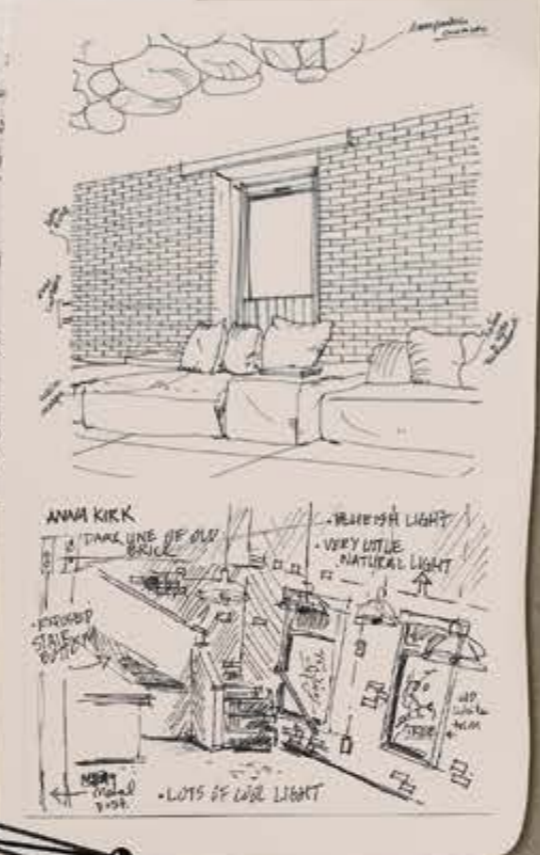

I ask God to make me an eye and to render my completion. Saba Couston.

CHANGE IS GOOD

The mood board features a central hand-drawn architectural sketch of a living room. The sketch shows a brick wall, a sofa, a coffee table, and a clock. To the right of the sketch are two sets of color swatches: the top set has light grey, medium grey, and blue; the bottom set has light beige, medium beige, and dark brown. To the right of the color swatches is a photograph of a modern living room with a blue sofa and a large window. The entire mood board is mounted on a houndstooth patterned paper.
